Range.

Our range is focused on creating clean, safe and healthy water.

B-HEALTHY RANGE

On-Site Hybrid Sanitation and Purification Systems

These residential systems use advanced patented ozone-to-oxygen technology combined with the natural elements of freshwater or minerals to create healthy hassle-free pool water.

B-PROTECTED

On-Site Chlorine Generation via Electrolysis

These generators produce safe healthy disinfected water for our customers without the need for dangerous chlorine handling, dosing and storage.

B-PURE

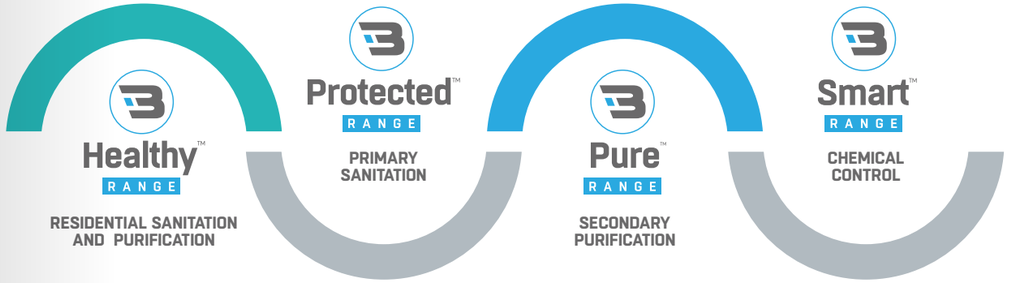
Secondary Purification Systems via AOP

These systems create exceptional water clarity whilst naturally reducing combined chlorine and destroying dangerous chlorine resistant parasites such as Cryptosporidium and Giardia to ensure compliance with health departments.

B-SMART

Water Analysers and Controllers

These controllers deliver the cleanest, safest and maintenance free water available by using highly accurate probe technology to monitor and maintain swimming pool water chemistry.



Partnerships.

We have partnered with the following quality international brands.

ProMinent® GRUNDFOS Dolphin™ HAYWARD HeadStart FINANCE maytronics

Supporters.

We are strong advocates within the aquatic industry supporting the following organisations.
