Onsite Hybrid Sanitation and Purification

Brauer Swim has released its latest residential B-Healthy range of low TDS (Freshwater) and Mineral pool systems combining chlorine generation via electrolysis with ozone injection.

These systems offer a robust design using over-sized components for performance and reliability.

Our B-Healthy range uses advanced patented ozone-to-oxygen technology combined with the natural elements of freshwater or minerals to create healthy hassle-free pool water.

Performance is nothing without long-lasting reliability. That's why our latest residential systems combine constant innovation with expert design and engineering.

B-Mineral systems for pools up to 150,000 litres and our B-Fresh system for pools up to 70,000 litres.
