BRAUER SWIM

25 YEARS OF INNOVATION

B Fresh

A fresher, softer feel

By naturally reducing the need for damaging chlorine by up to 80% and salt levels by a staggering 75% against traditional pool systems, Brauer Swim has created a backyard paradise suitable for EVERYONE.

No unwanted allergies, only gentle, skin-friendly, fresher water that is a treat for your eyes and provides the luxurious freshwater feel we all want from our swimming pool.

Transform your mind and body by eliminating the smell, taste and feel of chlorine.

Countless Australians are choosing the Brauer Swim B-Fresh Pool System as a healthier pool sanitisation solution that features patented technology to ensure the well-being of their loved ones and friends.

Take the plunge into a fresher water swimming pool today and experience the difference.

Let's make it clear...

You don't need to add anything to your pool to create the Ozone, the B-Fresh system does it all using the air we breathe.

When the B-Fresh system runs your pool, water flows through the Patented Ozone Injection Manifold that acts as a venturi to activate the ozone module.

The nasties that cause skin irritations and red eyes are oxidised into oblivion when passed through the manifold on the way back to your pool.

By combining electrolysis with this ozone technology using a small amount of salt in your water, undetectable to taste, the water is disinfected quickly and free from impurities. Your pool will be naturally fresher and safe to swim in all year round.

Our Australian technology delivers unparalleled water quality that is 3,000 times more powerful than traditional systems.

The B-Fresh system is suitable for all pool surfaces and compatible with all pumps and filters. Easily retrofit the B-Fresh system to any existing pool, spa or plunge pool.
